

Legislative Positions

STATE ISSUES

1. Protect all local government revenues against further efforts to erode them.

Protect existing amount and work to re-instate the full 10% of LGDF. Also oppose attempts to balance the state budget by (1) increasing fees charged to local governments; (2) raiding dedicated funds used by local governments.

2. Oppose legislation that attempts to eliminate local decision-making authority particularly with local zoning issues and infrastructure funding (water and sewer system funding).

Modernize municipal authority allowing more flexibility in areas such as permit control, maintenance on property, crime free housing, allowing the change in number of municipal council members, zoning ordinances, etc. Metro West supports legislation that **manages** growth and development while maintaining local control.

3. Address follow up legislation for Police Reform Package

Work with stakeholders on funding sources for body cameras, electronic storage, FOIA management and pause elimination of qualified immunity giving the new body camera mandates time to be implemented.

4. Maintain the efficacy of local government economic development tools including Tax Increment Finance Districts (TIF). TIFs are an essential and effective tool for communities to address land use and land condition problems, and to provide the funding necessary to do so. The current statutory limitations on the implementation of these tools are extremely rigorous and serve to ensure that they are only applied where appropriate, or are subject to challenge in a variety of fashions. Metro West opposes the imposition of any moratoria or greater restrictions upon the use of local government economic development tools.

5. Oppose unfunded and under-funded mandates. Metro West opposes legislation that creates unfunded or under-funded mandates for local governments.

Oppose attempts to reduce the State's share of funds currently provided for programs such as roads, transit, schools, parks, storm water and other public infrastructure. Metro West opposes mandates on lead service line replacement with no funding source.

6. Support Pension Reamortization for Downstate Public Safety Pensions. Encourage lawmakers to extend the amortization schedule for downstate public safety pension funds to 2050 or later, to be in line with other funds and ensuring municipalities are better prepared to continue their obligation to adequately fund retirements for public safety pensions.

Metro West Council of Government represents about 750,000 voices by advocating for effective public policy and promoting local government initiatives in Kane, Kendall and DeKalb Counties. Established in 2004, Metro West serves the region by:

- Promoting excellence in local government.
- Evaluating the impact of pending state and federal legislation on municipalities.
- Articulating municipal concerns and advocating municipal positions on local, regional, state and national issues.
- Fostering intergovernmental communication and cooperation.
- Providing research, technical assistance, training and leadership development opportunities to members.
- Addressing growth, transportation and water conservation issues affecting the region.
- Serving as a strong advocate for municipalities.

7. Gain continued recognition of the Northwest Water Planning Alliance as the regional entity that will guide water supply planning and policy and be the model for other regional entities. Water supply is a critical issue for the region's sustainable future that must have proper stewardship. Municipalities have the experience in producing and regulating water and the interest in insuring the future of the water supply for its citizens. As such, municipalities must be key members of any planning or governing body for such water supplies.

FEDERAL ISSUES

1. Increase transportation funding for region, with increased focus on multi-year transportation plan. Work with Illinois' congressional delegation to increase the share of federal transportation dollars that are invested in the state, northeastern Illinois and the Metro West (Kane, DeKalb and Kendall County) region.

2. Continue to provide assistance to local governments to replace lost tax revenues. Covid-19 has created a loss of tax revenues to local governments. Metro West stands ready to work with our Federal partners on financial assistance to ensure the continued funding through ARPA and other funding.

3. Support sensible policing reform at the Federal level. Policing reform at the federal level insures equitable protections to law enforcement and citizens. Metro West supports reforms that also assists those sworn to protect the public.

JOINT FEDERAL/STATE ISSUES

1. The State must contribute its share of Federally Funded Projects. Local municipalities rely heavily on joint programs of the federal and state government. The state must continue to commit and provide its share of such programs in a timely manner to allow these valuable projects to continue.
